

## HUMAN BEINGS AND VERTEBRATE ANIMALS TISSUES FORM (6B)

***Required for all research using fresh tissue, cell cultures, blood, blood products and body fluids. If the research involves living organisms, ensure that proper human or vertebrate animal forms are completed.***

Project title:

Student(s) name(s):

### **To be completed by the student:**

1) What tissue(s), organ(s), or part(s) will be used?

2) Where will the above tissue, organ, or part be obtained (identify each separately). If using pre-collected and identified primate cell lines, you must mention the source and catalog number.

3) If the tissue is obtained from a source within a research institution, please provide information regarding the vertebrate study from which the tissue was obtained. Include the name of the research institution, the title of the study, the local IACUC approval number and date of the local IACUC approval:

4) Include Form 2 - Qualified Scientist - completed and signed.

### **TO BE COMPLETED BY THE DESIGNATED SUPERVISOR:**

( ) I checked that the student will work solely with organs, tissues, cultures or cells that will be supplied to him/her by myself or by qualified personnel from the laboratory; and that if any vertebrate animals were euthanized this happened for a reason that has nothing to do with student research .

### **AND/OR**

( ) I certify that the blood, blood products, tissues or body fluids in this project will be handled in accordance with the standards set forth in Occupational Safety and Health laws.
